

Focusing products, technologies, and services for installation of solar power systems

Information about the Solar Panel Installation Consultation Plaza

Total Photovoltaic Event for Solar Power Generation: PVJapan 2011

December 5 (Mon) - December 7 (Wed), 2011 Makuhari Messe

For convenience, three different types of exhibit booth are available. Also, a mini presentation stage is provided for the dedicated use of companies exhibiting in this plaza. Facilities are provided where you can undertake consultations and do effective and significant business. Please take advantage of these plazas to make the most of your presence at PVJapan. (*The Solar Panel Installation Consultation Plaza is to be located near the other installation-related areas.)

Participation in the Solar Panel Installation Consultation Plaza at PVJapan

Applicable products and technologies

Products, technologies, and services for implementing solar power generation

★ A special area for industrial and domestic PV applications for people who are thinking about installing solar power generation at their businesses or homes
★ Bringing together general and corporate visitors with an interest in installing solar power generation
(Company engineers are also prospective individual users)

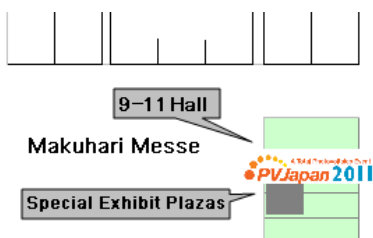

Registration web site: <http://semi.jp/pv11j>

How to Apply

Please enter your company name, desired booth type, and number of booths at the registration web site (<http://semi.jp/pv11j>), then print out and affix your seal to the Exhibit Booth Application and Contract Form and send it to the Sales Department at SEMI Japan.

* Make sure the seal affixed before sending the Exhibit Booth Application and Contract Form. Please note that you cannot reserve a booth simply by registering at the registration web site. You must also send in the application form.

Location of Special Exhibit Plazas

The Special Exhibit Plazas are organized by following four topics. Please contact SEMI Japan (see contact information below) for more information about plazas.

- ◇ PVJapan Special Area - Next-generation Solar Cell Plaza
- ◇ PVJapan Special Area - Solar Panel Installation Consultation Plaza
- ◇ Joint Special Area with RE Fair – Smart Networks/Smart Houses Plaza
- ◇ Joint Special Area with RE Fair – Battery, Electric Power Storage, and Transportation Systems Plaza
