

Dear SEMI Members and Exhibitors,

SEMI invites you to "2012 Taiwan PV Market Update and PV Taiwan Show Introduction Seminar" on Wednesday, December 7, 2011!

Driven by the rapid technology advances, price drop and renewable energy need, the goal of grid parity can be met earliest by 2013. Meanwhile, with the enhancement of technology and also potential market demand, global PV production centers have been shifting to Asia-Pacific region and Taiwan is world second largest solar cell maker contributing more than 14% of global market share with key manufacturers like Motech, Gintech and Neosolar! Because of this leading manufacturing position, PV Taiwan 2011 brought together top cell/module/system makers in Asia and global equipments and materials providers to showcase more than 420 product solutions achieving total 280 exhibitors with 800 booths!

To connect your business to this strong market and invest in the region that really matters, SEMI provides you the best platform to explore enormous business opportunities! We will show you the most updated market information and how you can do branding and sales through PV Taiwan show! Join us to establish your presence and grow market share now!
